

Description	Brand	Series	QTY	Photo
ROSEMOUNT TRANSMITTER 0 - 2,5 BAR + DOC.	ROSEMOUNT - EMERSON	3051S SERIES	2	 A photograph showing two Rosemount 3051S Series Pressure Transmitters, one of which is partially disassembled to show internal components. Next to them is a clear plastic bag containing mounting hardware and a white instruction manual with technical diagrams.
TRANSMITTER GEB-PIT-08106	ROSEMOUNT - EMERSON		1	 A photograph of a single Rosemount 3051S Series Pressure Transmitter, shown both assembled and disassembled to reveal internal parts. It is accompanied by a white instruction manual and a small metal component.

ROSEMOUNT DP LEVEL TRANSMITTER + DOC.	ROSEMOUNT - EMERSON	3051S SERIES PRESSUR E TRANSMI TTER	1	 A photograph of a Rosemount 3051S DP Level Transmitter with a Document Output Card (DOC). The unit is a stainless steel, cylindrical device with a yellow cap on the bottom. It is connected to two stainless steel process connections and a coiled stainless steel braided cable. The background is a light blue grid.
TRANSMITTER 3051S W/SEAL 1199	ROSEMOUNT - EMERSON	3051S	1	 A photograph of a Rosemount 3051S Transmitter with Seal 1199. The unit is a stainless steel, cylindrical device with a yellow cap on the bottom. It is connected to two stainless steel process connections and a coiled stainless steel braided cable. The background is white.

ROSEMOUNT PRESSURE TRANSMITTER-PIT-0821	ROSEMOUNT - EMERSON		1	 A photograph of a Rosemount PIT-0821 pressure transmitter and its user manual. The transmitter is a cylindrical metal device with a yellow cap on top and a process connection at the bottom. The manual is a white paper with technical diagrams and text in German.
ROSEMOUNT LIQUID LEVEL INDICATOR 0 - 622 MBAR	ROSEMOUNT - EMERSON	1199 SEAL AND DP LEVEL TRANSMITTER / 3051SF SERIES FLOWMETER	1	 A photograph of a Rosemount 3051SF liquid level indicator. It consists of two circular stainless steel flange-mounted sensors connected by a central electronic module. The sensors have blue 'X' marks on their faces. The central module has a yellow label and a process connection at the bottom.

TX:DP;-2,5 TO 2.5 BAR, 24VDC,42

TRANSMITTER PRESS;0-5 BAR ,EX IA IIC T6 - ROSEMOUNT	ROSEMOUNT - EMERSON		1	 A photograph showing a Rosemount pressure transmitter with a stainless steel body and yellow process connections. It is accompanied by a metal mounting bracket, a printed manual, and a small bag of hardware, all resting on a blue grid surface.
TRANSMITTER ROSEMOUNT 0-100 DEG C - ROSEMOUNT	ROSEMOUNT - EMERSON	0065N31 J0110N0 700I1XA	1	 A photograph of a Rosemount temperature transmitter with a long, thin probe. It is shown with its printed manual, a small bag of hardware, and a white card that reads "DOCUMENTS INSIDE" in red text, all on a blue grid surface.

TRANSMITTER PRESS F/ TURBO MACH,4-20MA - SOLAR	ROSEMOUNT / SOLAR TURBINES	3051TG3 A2B21AK DM5C1	1	
TRANSMITTER DP;-2.5 TO 2.5 BAR,10.5-42.4VDC - ROSEMOUNT	ROSEMOUNT - EMERSON	3051S SERIES PRESSUR E	1	

TRANSMITTER PRESS;0-15 BARG,EEX IA IIC T4/T5 - ROSEMOUNT	ROSEMOUNT - EMERSON		1	 A photograph of a Rosemount pressure transmitter with a stainless steel body and yellow process connections. It is placed on a white grid background next to two manuals: a large 'Rosemount Product Manual' and a smaller 'Rosemount 3051S Series Pressure Transmitter' manual. A small metal fitting is also visible to the right.
TRANSMITTER COPLANER, 0.98 TO 20.68 BAR - ROSEMOUNT	ROSEMOUNT - EMERSON	3051S SERIES PRESSUR E TRANSMI TTER	1	 A photograph of a Rosemount 3051S Series Coplaner pressure transmitter with a stainless steel body and yellow process connections. It is placed on a white grid background next to two manuals: a large 'Rosemount Product Manual' and a smaller 'Rosemount 3051S Series Pressure Transmitter' manual. A yellow tag is attached to the transmitter, and a small plastic bag containing two orange O-rings is visible in the foreground.

TRANSMITTER, TEMP;0-200 DEG C,EX IA IIC T6	ROSEMOUNT - EMERSON	Pt100_38 5_4- WIRE	1	 A Rosemount 3051S Series Temperature Transmitter, model Pt100_38, 5-wire. The device is a stainless steel, circular unit with a central display screen. It features orange-colored process connection ports on the top and right sides. The front face is marked with safety warnings: "IN EXPLOSIVE ATMOSPHERE" and "KEEP TIGHTENED CIRCUIT ALIVE". The unit is shown against a white grid background.
PRESSURE TRANSMITTER 3051S SERIES	ROSEMOUNT- EMERSON		1	 A Rosemount 3051S Series Pressure Transmitter, model 3051S. The device is a stainless steel, cylindrical unit with a yellow-colored process connection port on the bottom left. It is shown next to its technical manual, which is open to a page showing a diagram of the transmitter. The unit is shown against a white grid background.
